

## Frequently Asked Questions:

- 01 Does the mObridge Bluetooth Support Cellular phones from all Mobile providers?** Yes.
- 
- 02 Will my Phonebook be accessible from the display in the vehicle?** In most cases yes but we recommend that you check the full phone compatibility guide for available features.
- 
- 03 Will my Answered, Missed and Dialed call lists be accessible from the display in the vehicle?** In most cases yes but we recommend that you check the full phone compatibility guide for available features.
- 
- 04 How many phones can be paired to the mObridge Bluetooth System?** Up to five Mobile Phones can be paired to the system. As with all Bluetooth Hands-Free Systems, only one handset can be paired to the system at any one time.
- 
- 05 How do I pair my phone to the Bluetooth System?** The pairing only needs to be done once. This is done by switching the vehicle on, searching for 'CAR BT' on your handset and then entering the code 1234.
- 
- 06 Does the system charge my Mobile phone?** No.
- 
- 07 Will the system affect my cellular reception?** No, the system uses the mobile phones existing antenna for cellular reception.
- 
- 08 Is the Bluetooth Hands-Free System upgradable?** Yes it is upgradable to enhance compatibility with future mobile phones.
- 
- 09 Will there be any cosmetic changes to my vehicle once the product is installed?** No. The only part that you will see is the microphone.
- 
- 10 Does the system cut or "tap" into any of the wiring of my vehicle?** No, it uses a "plug n play" installation system to ensure your vehicles original wiring stays intact.
- 
- 11 Where is the audio from the mObridge Bluetooth System heard?** The system uses the vehicle's existing speakers.
- 
- 12 Will the system cause excessive drain on the vehicles battery?** No. The mObridge kit draws 100mA of current while on, and under 1mA while off.
- 
- 13 What does the warranty cover?** The warranty covers manufacturing defects. It does not cover any compatibility issues arising from software or hardware changes made to your Mobile phone handset after the product has been installed and verified that it is working correctly. It does not cover faults in the system caused by incorrect installation.
